

Balance Ropes

Product code B.10

PLAYEQUIP

Dimensions LxWxH (m)

3 x 0.8 x 0.4

CFH - 0.4

Safety Surface Area - 25 sqm

The balance ropes are a great way to test your balance and coordination. Great as part of a trim trail, or a stand alone item. A tricky piece of playground equipment to master. A simple yet challenging obstacle that's a great introduction to a single rope tightrope walk, leaving lots of room to progress.

Made from solid chemical free wooden uprights (oak or robinia) that have a smooth and chamfered finish and 16mm steel core ropes. Super durable, perfect for school playgrounds or parks.

Guarantees
