Total Approx Weight - 5kg

Components

- (x1) Playground Telescope

The metal components of this playground telescope make it the best looking and most durable playground telescope on the market. Designed to be tough enough for use in public play areas.

The free movement allows the telescope to rotate and tilt making it a great playground extra to install and create a real destination for its users. Great for on high platforms, pirate ships and play structures. Each end is covered with a highly durable plexiglas making it safe and as vandal proof as possible.

Available in two sizes: LARGE Ø90, Length 630mm or SMALL Ø60m Length 310mm

*Please note: there are no lenses built into the telescopes, so there is no optical zoom.
