Guarantees

Timber - 15 years
Fixings - 20 Years

The climbing wall den is an exciting piece of playground equipment that can be used in a multitude of ways. Double sided climbing wall panels connect to create a great canopy for shelter and creative den play, you can even use the internal sub-structure for hanging elements.

The climbing wall den also has a timber ladder section on each side to allow easy descent once at the top, which is also a great lookout.

Featuring climbing holds made from sapele, a super durable hardwood which is easy on the hands and feet, perfect for aspiring young climbers.
