Heaviest Approx. Component: 160kg

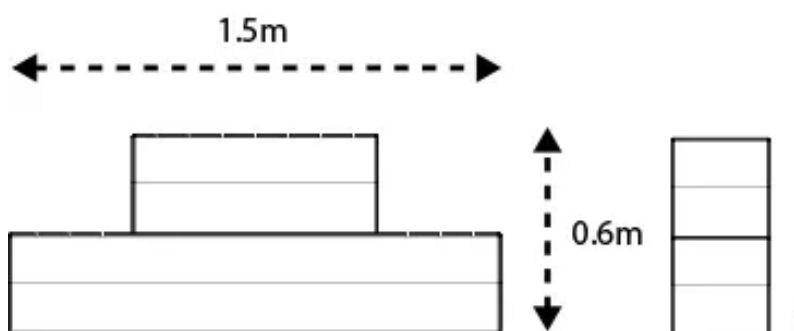

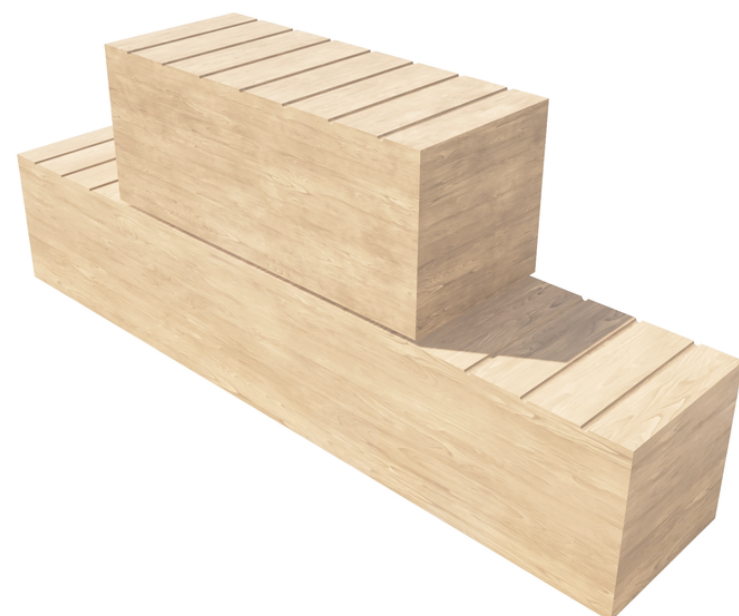

Shoe Type

Please get in touch to discuss options.

Guarantees

Timber - 15 years

Fixings - 20 Years

The step-up step block is composed of solid oak and stainless steel components, meaning it's incredibly durable and ideal for parks and playgrounds. All corners and edges are chamfered round and sanded smooth, with grooves on the top for extra grip underfoot.

The Step-Ups are a versatile bit of kit. Not only can an array of leg exercises be done, but they can also be used for exercises such as tricep dips and inclined press ups.

A great addition to our natural outdoor fitness equipment range. [Get in touch for cost and more details.](#)

It is advised in accordance to EN1176 that [Instructional Plates](#) are a requirement for outdoor gym equipment in a public space.
