Guarantees

Timber - 15 years

Fixings - 20 Years

The L-Shaped Planter is designed to fit into any awkward corner. The planter is made from solid oak sleepers and can be cut to any size to make the most of the space that you have. The smooth chamfered edges make the wooden planter ideal for schools and nurseries.

The heavy weight oak construction makes these particularly suitable for natural public areas, parks or other municipal areas. The raised level of the planter helps those with disabilities to gain access to the plants and can also be used as seating. The chamfered edges make these wooden planters great for children who like to explore their environment with their hands.

(Plants and soil not supplied).
