Please get in touch to discuss options.

Guarantees

Timber - 15 years

Fixings - 20 Years

Ropes - 5 years

The Robinia Traverse Trail combines a variety of balance and agility challenges into one engaging play experience. Designed to encourage active movement, the trail helps children develop balance, coordination, confidence, and problem-solving skills as they navigate each obstacle.

Crafted from naturally durable robinia timber, the trail offers exceptional strength and long-lasting outdoor performance. The combination of natural timber and rope elements creates an attractive play feature that blends seamlessly into parks, schools, and natural play environments.

The traverse trail includes a series of exciting obstacles, including swivel stumps, a balance beam, and a rope traverse, each providing a different physical challenge. As children move from one element to the next, they improve their agility, spatial awareness, and core strength. Meanwhile, the varied layout encourages social interaction and cooperative play as children tackle the course together.
