Introducing our stainless-steel playground water pump – the perfect addition to your outdoor play area! This durable and robust pump is not only easy to install but also simple to maintain, ensuring long-lasting enjoyment for kids and adults alike. Designed to be used with our log troughs or sluice gate, it seamlessly blends into any natural water feature you require. With its versatility, this pump can be incorporated into any outdoor project, bringing endless hours of fun and excitement.

Invest in our stainless-steel playground water pump today and create a unique and interactive play area that everyone will love! The pump must be mounted in such a way that the water connection at the lower end of the pump is always accessible. This is located at the bottom of the pump. It is therefore advisable to mount the pump on a pedestal or to construct a shaft below the pump.
