Sweet and simple, the Teepee is a versatile playhouse designed to be adaptable depending on the weather and the type of play taking place. The canvas sails are designed to easily detach using simple loops and hooks. These can be removed for the winter and stored away, or to increase visibility of play.

The hooks can also be used when Teepees are placed next to each other, to create dens in between and tunnels from one to the other.

The solid wooden robinia poles and stainless steel fixings mean this playhouse will stand the test of time.

Ideal for nurseries, parks, schools or gardens.
