

Shimmy Ropes

Product code TT.08

PLAYEQUIP

Dimensions LxWxH (m)

2.5 x 0.15 x 2.4

CFH - 0

Safety Surface Area - 19 sqm

Shimmy Ropes are a great way to create routes around a playground and help link playground equipment together. The most fun playgrounds are those that have circuits to follow and the Shimmy Ropes are a great obstacle to use. The ropes improve grip strength and test agility at the same time.

Our Shimmy Ropes come in a standard length of 2.5m but can be made to suit any playground requirements.
